

Arborscapes Custom Fertilizer Mixture

FISH HYDROLYSATE:

Pure liquid organic
Produced by enzymatic digestion of fish
Rich in protein and minerals
Good for flowers, fruit, vegetables, ornamentals, turf, trees, crops, and soil

BLACK SEA KELP:

Pure liquid organic
Strong source of potassium
Rich in cellulose and organic carbon
Improves water-holding capacity of soil

6N-12P-12K:

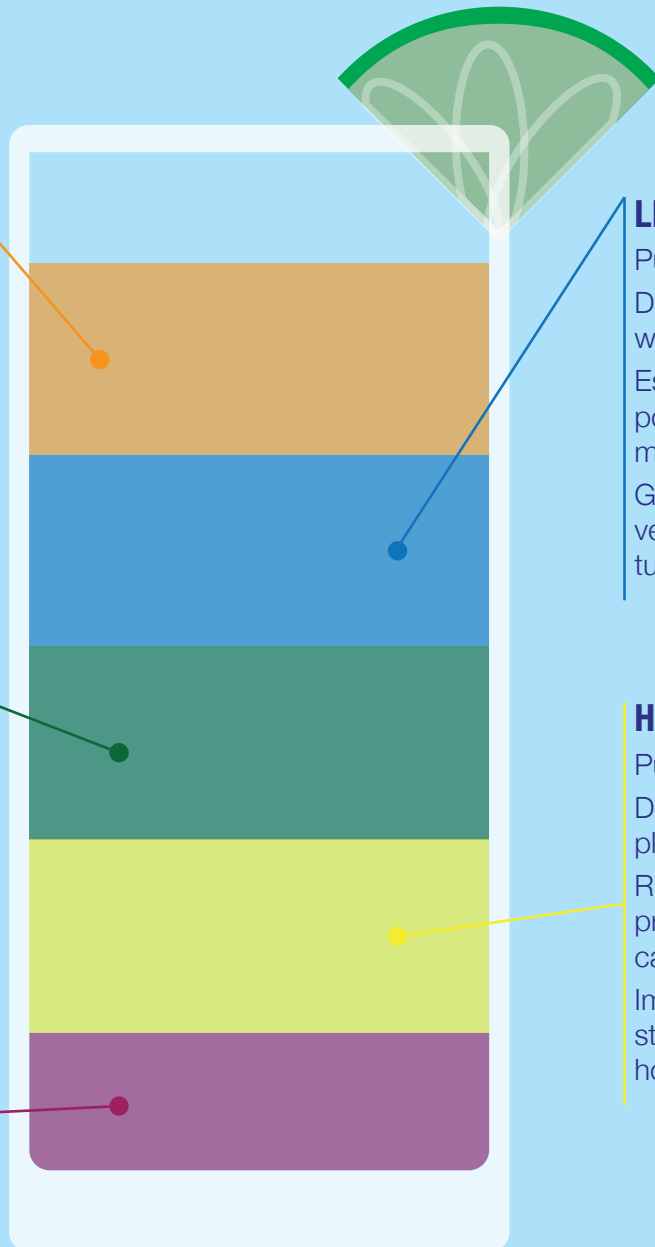

Mixture of nitrogen, phosphorus, and potassium
Rapid absorption "B-12 shot" for plant health
Provides quick "greening" for visible results

LIQUID COMPOST:

Pure liquid organic
Derived from fortified worm-casting extract
Establishes helpful bacterial populations in soil, mobilizing nutrients
Good for flowers, fruit, vegetables, ornamentals, turf, trees, crops, and soil

HUMATE PLUS:

Pure liquid organic
Derived from fossilized plant matter
Rich in humic acids, providing a slow-release carbon source
Improves the texture, stability, water and ion holding capacity of soil

OUR MIXOLOGIST:

A graduate of NC State with a degree in Turfgrass Management, Paul Crenshaw has been in the green industry since he was 15 years old. In conjunction with our expert suppliers, Paul has developed our proprietary fertilizer mixture specifically for the NC piedmont area to help our customers have a yard that wow's the neighbors.
